"A really sound book!"
Elton Trueblood

When is religious experience reality and when is it merely a mirage? Anna Mow believes the Bible has the answer and shows you how to turn the Bible into chapters in your own life. "No one has meant more to me in my own experience of Jesus Christ than Anna Mow. I can't honestly think of anyone who can afford to miss these pages."

OUT OF MY MIND

(Continued from page 60)

changed so that world affairs 4000 years later would be vastly improved. That's the brief affair Abraham had with Hagar, which need never have happened. Or if it did, she could have aborted.

How about Jacob and Esau? Jacob was such a worm, and Esau was such a man's man. He must have had charisma beyond Jacob's, so let's make him a leader.

Another turnaround could be Joseph and Potiphar's wife. Why should he go to prison, when he was innocent, while she was free to seduce the next houseboy who came along?

Women: the word conjures up scores of changes we could make in the Bible. The most obvious is to introduce some women among the 12 disciples. Then there's Paul, who could keep his ideas to himself.

A bit more organization of ideas would help in the Bible. It would be great if at least one book were organized as a systematic theology. And Revelation could be less vague, more specific, like eschatological books today.

When you get right down to it, there are only two incidents you'd really have to change to affect the whole thing: the rebellion of Satan and the fall of man. Those are the ones I'd really like to whomp a different ending on.
